Summer
2018 !!

12/10/2018

The last few months – A summary

- Significant upgrade in December to properly integrate protocols in to the tracker.
- Huge upgrade in June to change the patient/clinician view, that data store and move the whole service in to Microsoft Azure
- We had a lot of challenges during these upgrades, especially the second one but they were a unique set of changes that won't be repeated
- A bigger MyMR team

Holistic needs assessment

[Home](#) > [Lymphoma](#) > Holistic needs assessment

Macmillan eHNA

As agreed we have arranged for you to complete an holistic needs assessment online. This will only take you a few minutes to complete, and will let your care team know any concerns you may have had in the last week.

You may only use this code once, and it must be used before 22/08/2018. After that you'll need to speak to your care team again if you want to get another code.

To access the assessment:

Go to <https://mycareplan.co.uk/ehna>

Enter your date of birth

Enter your unique pass code, which is **565 453**

Then follow the on-screen instructions

Make sure you Submit the assessment at the end, so that your care team can see it and support you.

Integration with
Macmillan eHNA

Could be used
as alternative to
surveys in MyMR

development

What's coming up?

The screenshot shows a web interface for a 'Holistic needs assessment'. At the top, there's a header with 'My medical record' on the left, 'University Hospital Southampton NHS' in the center, and 'Welcome, Alexander Testin Sign Out' on the right. Below the header, a blue sidebar contains a user profile for 'Alexander Testin' and a breadcrumb trail: 'Home > Lymphoma > Holistic needs assessment'. The main content area has a teal bar labeled 'Macmillan eHNA'. Below this is a green bar with 'MY HOLISTIC NEEDS ASSESSMENT' and the 'MACMILLAN CANCER SUPPORT' logo. Underneath, there are language tabs: 'English' (selected), 'Cymraeg', and 'Polski'. The 'Welcome' section follows, containing two paragraphs of text explaining the purpose of the assessment tool and how the information will be used to support the patient.

MY HOLISTIC NEEDS ASSESSMENT

MACMILLAN CANCER SUPPORT

English Cymraeg Polski

Welcome

This assessment tool was developed by Macmillan Cancer Support (Macmillan/we) and is delivered in partnership with your care provider(s). Depending on the assessment tool that your care provider has selected, you could be asked about any recent physical, emotional, and general needs or concerns you have experienced recently, or about your quality of life.

The information you provide will help those caring for you understand your situation better and where appropriate create a plan to support you further.

New messaging interface

What's coming up?

The screenshot displays a mobile application interface. On the left is a vertical sidebar with menu items: Tasks, Messages, Charts, Library, More, Surveys, Health Information, Connected Devices, My Profile, FAQ, and Get Help. The main content area features a notification bar at the top stating 'You have 1 notification' with a bell icon. Below this is a notification card: 'Make an appointment with your physician' with a calendar icon and a right arrow. A 'My Tasks' section follows, dated 'Sep 28, 2018'. It contains three task cards: 1) 'Make an appointment with your physician' with an 'OVERDUE' tag and 'Once' frequency; 2) 'Take your medication' with a 'DUE TODAY' tag and 'Daily' frequency; 3) 'Check your BG in Morning' with a 'DUE TODAY' tag, a time range of '6:00 AM - 10:00 AM', and 'Daily' frequency. Each task card has a right arrow.
